

Valérieane Aron

Front End Developer

valeriane.aron@gmail.com

+33 619 781 933

Perth, Australia

AVAILABLE DECEMBER 10TH

2 years of experience / Diploma in web development.

Good knowledge of how to build websites and applications with respect to code quality and performance enhancement.

Strong attention to detail with the ability to approach problems in a logical and structured method.

Focused on new opportunities to grow my skills in Australia thanks to a **Working Holiday Visa** but also looking for a long-term opportunity as a sponsored worker.

Front developer @ARAMISAUTO.COM, PARIS

*References available on [linkedin](#)

- Develop a new version of the website as a SPA.
- Use « Component based » design pattern to develop Vue.js 2.6 generic components, organised in micro-fronts libraries and documented with Storybook.
- Mobile first development with Sass.
- Versioning with « conventional commits » rules and use of Airbnb stylelint norms to help maintain a top code quality.
- Build Vue.js components as *.umd* and publish them as npm packages.
- Pre-production & production release of pages following Agile approaches, with the Product and Devops teams.
- Improvement of global perf KPIs and SEO following Google recommendations, WebPageTest and Lighthouse tools.
- A sneak peek of my work can be seen here (pages of the website are progressively replaced with the SPA):
